

Clark Forklift Part

Clark Forklift Part - Currently, there are over 350,000 Clark forklifts performing worldwide, and more than 250,000 in use in North America alone. With five main lines across the world, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 distinctive models of lift trucks, with parts covering more than 120,000 particular items for all of its automated equipment. Your regional Clark Seller is your total source for availability of all your components requirements supplied by Clark Totalift.

Clark features a exceptional Parts Distribution team. The components warehouses are conveniently positioned in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their buyers and their dealers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Motivated to supply the highest level of value and service to our customers, Clark remains on the leading edge when it comes to enhancing efficiency and benefiting performance.

Clark Totalift has a very amazing worldwide support network. With over 550 locations globally, dealer representation in over 80 countries and 230 locations in North America, their high level of commitment to their consumers predominates the materials handling industry.

By revolutionizing the operator restraint system safety feature, Clark proudly remains a leader of innovation in the industrial equipment and automated forklift industry. This exceptional dedication to safety is at this time a standard feature on every forklift.

Clark's continual mission to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift manufacturer across the globe to be certified with the internationally approved quality standard ISO 9001 for each and every one of their manufacturing plants. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any environmental limitations, thus placing them in a dominant industry position.

Clark has preferred the particularly economical and advantageous system of "Lean Production" for its assembly plants and application of resources. This structure was developed to acknowledge the most effective approaches of manufacturing plant management and ensuring maximum efficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

By working together, Clark's product suppliers and engineers communicate towards enhancing product proficiency while minimizing expenses. The new value engineering agenda combines progressive product improvement and delivers improved customer support and service within the industry.
