

## Advance-Nilfisk Parts

Advance-Nilfisk Part - Think about how long and tedious it would really be to tidy up right after a party, without help from machines. Previously, the dust from upholstery and carpets had to be beat out of them manually; brushes, cleaning cloths and brooms were the leading cleaning products during that time.

The founder of Nilfisk-Advance, P.A. Fisker, started out as an electrical engineer who liked to work on electrical motors. After founding his business during 1906, he started to produce motors to drive fans, machine tools, drills and coffee grinders. Mr. Fisker's dream from the beginning was to own a worldwide company advertising products internationally.

The Nilfisk C1 was an incredible breakthrough for the cleaning industry. This ground breaking vacuum cleaner, invented by Mr. Fisker, weighed only 17.5 kilos and can be operated by one person. This creation came in a time where other cleaning machines were massive and needed at least 4 operators, therefore, the Nilfisk C1 transformed everything and developed the manner we clean forever. The brain behind these first cleaning machines remains unparalleled. Cleaning equipment provide an excellent solution to an existing problem; things get dirty and should be cleaned regularly, without a lot of effort.

Slowly, the company Nilfisk-Advance expanded through the years. In the the early part of the nineteen eighties the business expanded fast when the business became a part of the NKT Group. With new owners on board, they focused on driving Nilfisk-Advance ahead within the business, aiming to be an active global player in manufacturing professional cleaning equipment. Nilfisk-Advance is now located in every part of the globe due to gradually obtaining many small businesses to be able to grow their product portfolio and presence in new markets. They are really proud to offer a variety of cleaning solutions to fit every need.
